Wrap up

- Feedback:

  Where should our priorities be? Expanding the methods, expanding the examples, building

  a community, other?

  Wish list includes: scalability; real data problems; automatic differentiation.

- Work with us, get involved:

  Create an example using CoFI: modify an existing template or create your own.

- Espresso challenge:

  Contribute an espresso example: e.g. parameter estimation or Bayesian sampling.

  Students: propose an espresso example on 1 page… be paid to put it into espresso …
